

PRIVATE EVENTS AT FEINSTEIN'S / 54 BELOW

Located in the heart of the theatre district, Feinstein's/54 Below evokes the ambiance of a classic 1920s New York supper club with "the intimacy of a large living room" (The New York Times). This elegant space can provide the setting for unforgettable events, with classic American cuisine and live music. Menus may be tailored especially for your event.

FEINSTEIN'S/

54
BELOW

Elevate your virtual event with the excitement and energy of Broadway's Living Room.

Offering private access to our elegant and visually compelling room, Feinstein's/54 Below has now combined our state-of-the-art audio and visual systems with broadcast-quality studio equipment to create unparalleled production value.

Our turn-key solution includes advanced technical support, freeing you to create extraordinary content to engage and inspire your viewers.

Our space is fully compliant with all CDC and government health regulations so you can safely host a virtual or hybrid event and produce next-level video content.

Need help with content creation? Our Programming Department is available to consult with you to book the perfect entertainment for your event.

Virtual Studio/54 Below is the perfect place for your:

- **Corporate Meetings**
 - **Fundraisers**
 - **Concerts**
 - **Weddings**
 - **Anniversaries or Birthday Parties**
- And more!***

PRE-RECORDED EVENTS

Bring your pre-recorded event to life with a multicam shoot, featuring 4K capture and full frame sensors for cinematic shallow depth of field, combined with dynamic camera movement via motorized sliders and jib arm for a high production value look and feel.

You'll have the option to add three further angles using 4K super wide-angle GoPro cameras to capture a variety of flexible views such as stage-overhead, 'behind the scenes' of your event, or up-close musical instrument views such as drum kit, piano keyboard or guitar neck.

Included in your rental are sophisticated postproduction options such as advanced editing and keyframed movement, multiple split screen views, advanced color correction, motion graphics and more.

Our production team will work with you to create compelling, impressive, cinematic content for your virtual event.

Rental of our space for a Pre-Recorded Event: \$11,000

This Rate Includes:

- Private use of our venue including our elevated 9' x 16' stage (8-hour day)
- State-of-the-art lighting, backline & sound equipment
- A four-camera shoot with broadcast-quality 4K Full Frame Sony Cameras & motorized movement via slider & jib arm
- Three 4K super wide-angle GoPros for optional additional angles
- On-site health & safety officer to manage all safety regulations for talent, crew & attendees
- On-Site Technical Support including Production Manager, Lighting Technician, Sound Engineer & Camera Technicians
- Lighting Design
- Professionally mixed audio
- Piano tuning prior to your event
- Advanced Post-Production editing
- Coordination prior to your shoot date
- High Speed Internet Connection

LIVESTREAMED EVENTS

Our production offers 1080p livestreaming to your platform of choice (YouTube, Facebook, and more).

With three remote-controlled cinema-quality cameras and one close-up camera operated by a professional cinematographer, you'll be assured of the best possible image quality for your livestream event.

Your rental will include real-time editing and sound mixing direct to livestream. You'll have the option for graphic pages to start and end your broadcast and an option to place your event logo in the corner of the screen.

With the latest camera and live editing equipment, as well as a professional crew, streaming your live event has never looked so good.

We also offer the ability to record a high-quality version of the livestream as well as the individual camera angles. You're also welcome to make use of our post-production editing and re-uploading of the livestream as an additional service.

Rental of our space for a Livestreamed Event: \$15,000

This Rate Includes:

- Private use of our venue including our elevated 9' x 16' stage (8-hour day)
- State-of-the-art lighting, backline & sound equipment
- 4 x 1080p HD BlackMagic Cameras
- BlackMagic Studio Switcher & Livestream Encoder
- On-site health & safety officer to manage all safety regulations for talent, crew & attendees
- Lighting Design
- On-Site Technical Support including Production Manager, Lighting Technician, Sound Engineer & Camera Technicians
- Professionally mixed audio
- Piano tuning prior to your event
- Optional intro & outro graphics pages
- Coordination prior to your shoot date
- High Speed Internet Connection
